

Anualithe Uwayo

Software Developer & UI/UX Designer

Nationality: Rwandan

PROFILE

Passionate problem-solver who bridges design and engineering. Currently studying at AkiraChix CodeHive Kenya, with a background in Mathematics, Physics, and Computer Science. Experienced in building user-centered products - from intuitive UI flows to robust API integrations - with a focus on clean, navigable experiences that serve real users.

EXPERIENCE

FikaMarket

UI/UX Designer & Backend Developer

- Led the end-to-end UX design process for an agricultural marketplace platform that connects smallholder farmers directly to buyers, cutting out middlemen and ensuring fairer pricing
- Designed intuitive user flows for both the USSD interface (farmer-facing) and the PWA/mobile application (buyer-facing), focusing on accessibility and ease of navigation for users with varying tech literacy
- Conducted user research and usability testing to iterate on wireframes and prototypes, resulting in a streamlined checkout and produce-listing experience
- Built and maintained RESTful API endpoints using FastAPI and Python, with SQLAlchemy ORM and PostgreSQL for data persistence
- Integrated third-party APIs including Flutterwave for secure payment processing, Africa's Talking for SMS/USSD gateway services, and LocationIQ & Positionstack for real-time geolocation and address resolution
- Implemented JWT-based authentication and Bcrypt password hashing to secure user accounts and API endpoints
- Collaborated with a cross-functional team using GitHub for version control and Miro for design collaboration and sprint planning

POS System

Full-Stack Developer

- Developed a point-of-sale system for small and medium businesses to manage inventory, process transactions, and generate sales reports
- Built the backend with FastAPI, implementing secure user authentication using JWT tokens and role-based access control for cashiers and administrators
- Designed and implemented the database schema in PostgreSQL using SQLAlchemy and managed migrations with Alembic
- Validated all request and response data with Pydantic models to ensure data integrity across the system
- Created a responsive frontend dashboard using React and Tailwind CSS for real-time sales tracking and inventory management
- Wrote unit and integration tests with Pytest to ensure reliability of core transaction and inventory logic

EDUCATION

AkiraChix CodeHive, Kenya

Software engineering
(Current)

Lycee de Kigali

Mathematics, Physics & Computer Science (2023-2025)

TECHNICAL SKILLS

BACKEND

Python, FastAPI, SQLAlchemy, Pydantic, Alembic, JWT, Bcrypt

FRONTEND

JavaScript, React, Next.js, Node.js, HTML, CSS, Tailwind CSS

DATABASE

PostgreSQL

TESTING & QA

Pytest, Postman, Cypress

DESIGN

Figma, Adobe Illustrator, Photoshop

COLLABORATION

GitHub, Miro

EXPERTISE

- UI/UX Design
- Frontend
- Backend
- Mobile
- Product Management
- Quality Assurance
- Data & ML
- IoT
